PRODUCT DESCRIPTION

Adding a USB mouse to your Laptop has long been a necessity of convenience; you wouldn't dream of traveling without one in your laptop bag. Now, from DeluoGPS, comes the next step in portability and convenience: a Deluo MouseGPS™ that takes the USB mouse to the next level. This innovative design integrates a high-quality optical mouse, with premium features such as a retractable USB cord and ergonomic

grip, with a state-of-the-art DeluoGPS. This multi-tasker takes one of the most needed Laptop accessories and adds one of the most useful functions available to any traveler to transform the Laptop into a full-featured GPS navigation system. Available with Microsoft® Streets & Trips, the best-selling mapping software, the Deluo MouseGPS™ will help you find your way through urban jungles and the World Wide Web alike.

Do More, Carry Less™;

the Deluo Mouse GPS™ literally puts the world at your fingertips!
